DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group II, claims 15-27, in the reply filed on July 5, 2005 is acknowledged. The traversal is on the ground(s) that procedure wasn't followed. This is not found persuasive because the inventory management database is a separate utility. Applicant's assertion that Group I may be used as an inventory management database is noted. However, it is not determinative. Also, another utility may be an authentication of a template and user data without using a process manager.

Regarding Groups I and III the reason for restriction is the process may be used as inventory tracking using a point of sale device.

Applicant's REMARKS regarding the species are persuasive. The species requirement is withdrawn.

The requirement, sans the species requirement, is still deemed proper and is therefore made FINAL.

2. Claims 1-14 and 28-32 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on July 5, 2005.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 15-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Gardner et al, US 5,758,327.

Gardner discloses a process manager, e.g. 10, inherently including a graph and a line item approval module, e.g. col. 3, lines 48-52, and e-mail notification, e.g. 53-61.

5. Claims 15-27 are rejected under 35 U.S.C. 102(e) as being anticipated by Dmochowski et al, US 2003/0110114 A1.

Dmochowski discloses a process manager, e.g. 15, inherently including a graph and a line item approval module, e.g. 17, and e-mail notification, e.g. 18.

6. Further pertinent references of interest are noted on the attached PTO-892.

7. Applicant's two separate Information Disclosure Statements are enclosed.
